

Call for Sponsors, Exhibitors and Advertisers

---

Helsinki, November 22<sup>nd</sup>, 2016

**Dear Collaborator,**

**The 10<sup>th</sup> International Symposium on Memory and Awareness in Anaesthesia (MAA10) will be held at the Scandic Marina Congress Center, Helsinki, Finland, June 19<sup>th</sup>-21<sup>st</sup>, 2017.**

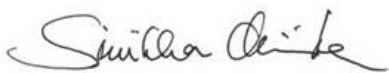

This symposium takes place every three years. Previous symposium was held in Tokyo, Japan in 2014. Attendees in these symposiums include anaesthesiologists, neurophysiologists, psychologists, surgeons and neurologists. Our goal for the upcoming symposium in 2017 is to widen the audience to include participants from intensive care and pediatrics.

At these symposiums the world's leading scientists and physicians present the latest research findings in memory and consciousness in anaesthetized patients, the best methods to monitor and to prevent awareness under anaesthesia and ways to treat post-traumatic stress disorder (PTSD).

For our collaborators the symposium offers an opportunity to reach over 250 international professionals, learn from the expert researchers and clinicians and get the cutting edge on the latest research findings. We offer multiple levels of sponsorship and ways to be visible at the symposium. For more information regarding collaboration, see the attached fact sheet.

We look forward to seeing you at the MAA10 Symposium in Helsinki in June 2017.

Sincerely Yours,

Sinikka Münte, M.D., PhD

*Meeting Director*

Adjunct Professor, R&D Director  
Perioperative, Intensive Care and Pain Medicine  
Helsinki University Central Hospital

Hugh Hemmings, MD, PhD, FRCA

*Chair, Scientific Program*

Professor of Anaesthesiology and Pharmacology  
Anesthesiologist-in-Chief,  
New York Presbyterian Hospital-Weill Cornell  
Weill Cornell Medicine
